May 2, 2023

Dear Resident of Craig-Y-Nos:

Please be advised that at the next Board of Commissioner's Stated Meeting on Tuesday, May 9, 2023 at 7:00 PM in the Shanis Auditorium of 520 Virginia Drive, the Board will consider retaining Carroll Engineering to complete the design of the Craig Y Nos sewer system as preliminarily outlined at the March Board of Commissioners meeting.

At this point, a further specific design is not underway, however, the execution of an agreement with Carroll Engineering will allow the design process to move forward. Since Carroll Engineering has completed all preliminary work, contracting with them will allow us to proceed without the need to restart the process with a different engineering firm and incur new expenses.

It is our intention to have specific meetings and provide correspondence with those affected as this design is being finalized. We will continue to communicate directly with all of you in regards to the design, as well as any costs or secured grants and financial assistance with information on how those will be distributed throughout the project area.

I have had multiple conversations with state elected officials regarding grant assistance and we have identified multiple opportunities we believe are eligible for funding. We will pursue those opportunities very aggressively.

If you have questions, please feel free to email me at kferguson@upperdublin.net or call 215-643-1600, ext. 3220.

Sincerely,

Kurt M. Ferguson, Township Manager
